SMARTPHONES

TELESTAR

With the DIRA S 20C, TELESTAR is extending its well-known range of radios with an additional highlight: the handsomely designed and high-quality multifunctional stereo radio is a digital receiver for both cable-transmitted (DVB-C) and internet-streamed digital radio, and thanks to UPnP, Bluetooth 5.1 and USB can play music files from external devices and media sources. The razor-sharp large 2.4" (approx. 6.1 cm) diagonal TFT display provides useful background information, together with the digital sound processor (DSP) and comprehensive equaliser, the 2.3"

loudspeakers, each with 15W power, provide optimal listening enjoyment. An additional highlight of the S 20C: simply record your favourite programme or music onto a connected USB media device using the record function, at the press of a button or using a programmable timer! Handy additional functions such as an alarm clock, sleep timer or presenting current weather information round off the radio functions - in short: the TELESTAR DIRA S 20C is a high-quality and feature-packed radio, in a really user-friendly design.
