DIGITAL INDOOR TV ANTENNA

Mini size series

ANIR1505BK700

This is a special active DVB-T mini antenna for trouble-free reception of digital VHF and UHF television signals in core and peripheral zones. The antenna features high amplification of up to 26dB and provides outstanding digital reception.

Included in delivery:

- 1 X DVB-T antenna
- 1 X USB cable
- 1 X operating instruction

Special features

- SMD circuit technology design
- Shielded for minimum interference
- Stylish and mini-sized design
- Built-in high gain and low noise amplifier
- Powered by DTV set-top box or power adapter
- Excellent reception for digital, freeview and analog TV signals
- Compatible with HDTV of various digital terrestrial signal (DVB-T, ISDB-T, DMB-T/H, ATSC)

Safety instructions

- **For reasons of safety, unauthorised conversion and/or modification of the product is prohibited.**
- **Install out of reach of children or animals.**
- **Never attempt to open the device.**
- **Repairs may only be performed by authorised specialised staff!**
- **Do not use the product if it is damaged.**
- **Do not expose the device to high temperatures and strong vibrations or high mechanical stress.**
- **Keep the packaging material in a safe place. It could become a dangerous toy for children.**

Technical data

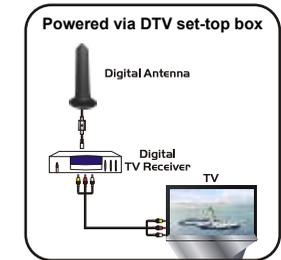

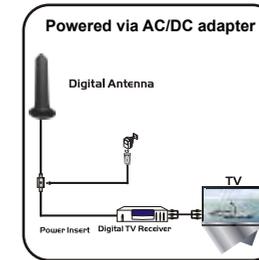

- Frequency range: UHF:470-694 MHz
- Gain: 26 dB
- Max. Output level: 100dB μ V
- Noise Figure: \leq 5dB
- Power supply: via DTV set-top box (DC 5V/40mA) or via AC/DC power adapter (not included) (DC 5V/40mA)

Operating instructions

To operate the digital mini antenna, ensure that you have a suitable DTV set-top box and that this function is switched on. Refer to the operating instructions of your DTV set-top box for details.

A> Powered via AC/DC power adapter (not included)

Firstly, connect the coaxial cable of the mini antenna to the antenna input jack of DTV set-top box or TV directly, then connect the DC output jack of USB power adapter to mini antenna, finally connect the USB power adapter to the AC power socket. (Note: USB power adapter plug is not included in the unit)

B> Powered via DTV set-top box receiver

Firstly, connect the antenna cable of the DVB-T mini antenna to the antenna input jack of your DTV set-top box (make sure that the 5V power supply on your DTV set-top box is switched on).
